Art Unit: 1793

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-7, drawn to an emulsion composition.

Group II, claim 8, drawn to a coating material comprising the composition of claim 1.

Group III, claim 9, drawn to a film obtained from the emulsion of claim 1.

Group IV, claim 10, drawn to a solid electrolyte obtained from the emulsion of claim 1.

Group V, claim 11, drawn to a filter obtained from the emulsion of claim 1.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The emulsion composition of claim 1, which defines the special technical feature shared by all the groups, is either obvious or anticipated by U.S. patent 3,656,949. Accordingly, the special technical feature does not provide a contribution over the prior art and no single general inventive concept exists. The restriction is appropriate.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of an invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Art Unit: 1793

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
